

Concurrent Enrollment Information and Updates

Hello Students and Families,

Lake County School District highly values our concurrent enrollment program. We partner with Colorado Mountain College to offer a variety of college courses. Students who are enrolled in our concurrent enrollment program can take college courses free of tuition, and can receive both college and high school credit for those courses.

We have updated our Concurrent Enrollment Policy. [Here](#) is a link to the new policy. Based on this policy, we are making some adjustments to the registration process starting this spring for Fall 2025 classes. Below is information on these changes, both for students who are new to concurrent enrollment and for students who are already enrolled in the program.
