April snow/showers bring lots of puddles to play in! Hopefully the weather will be a bit warmer this month so we can play outside more with our balls. We will focus on letters V, W, & X. Your child will learn the name of each letter, the sound that the letter makes, and they will practice writing these letters. The kids will also start to write numbers and begin to learn number sense with numbers 6-10 and beyond!

## OUR LEARNING

*We will continue the study of Balls this month. The kids will explore what makes balls move, what balls are made of, and who uses balls! We will watch some videos of sports that people play with balls. We hope that your child learns some interesting, new fact about balls!*

## HOME CONNECTION

*If your child has any new balls, please allow them to bring them to share with their friends. Please consider sharing a video of someone playing a sport with a ball or of a pet who likes to play with balls. If you or someone you know has a special job or hobby that involves balls, we would love for them to share it with our class! Thanks for your support!*

## **REMEMBER....**

**Sometimes it's still snowing or muddy and wet in April! Please continue to bring your child's snow clothes, we go outside every Tuesday and Thursday! Students need a water bottle and backpack everyday! Thank you for sharing your child us with us! Contact us with questions or concerns 😊**
